

We are looking for a Marine Surveyor for our office in Antwerp.

As a Marine Surveyor at Van Ameyde Marine you will carry out key survey activities on goods or objects. You will investigate the extent and cause of the alleged damage and draw up a report, mostly in the English language. The majority of this work is done in the port of Antwerp.

During the survey, you will discuss the situation with several involved parties, i.e. the vessel's crew, the shipping company, cargo owners, terminal workers etc.

The marine world is not a "9 to 5" world. This means you will need a willingness to work beyond office hours occasionally. Being a Marine Surveyor is a challenging and variable job with continuous learning.

Van Ameyde Marine is one of the most highly rated marine survey companies in Belgium. To keep our standards high, the ideal candidate has:

- Several years' experience as a Deck Officer on board of cargo vessels
- Experience on board of tankers is a bonus
- Good communication skills
- Comprehensive knowledge of the Dutch and English language, both written and verbal
- A professional and flexible mentality
- Lives in a range of about 40 km around Antwerp

Van Ameyde Marine offers you:

- A good salary
- Excellent benefit package
- Company car
- Varied work
- Working in a team of very motivated colleagues
- A pleasant working environment with continuous learning

Would you like to join our team? Please send your application and CV to carl.dedecker@ameydemarine.com .
