Cargo Handling All/2
STCW A-II/2

SCOPE:
The Cargo Handling All/2 course has been designed to meet the requirements of the STCW Convention 1978, as amended, Table A-II/2.

OBJECTIVE:
Those who successfully complete this course should achieve the required standard of competence and knowledge regarding the handling of cargo on board a ship, and to plan and ensure safe loading, stowage, securing and care during the voyage and unloading of cargoes.

COURSE CONTENT:
• Knowledge and the ability to apply relevant international regulations, codes and standards concerning the safe handling, stowage, securing and transport of cargoes.
• Knowledge of the effect on trim and stability of cargoes and cargo operation.
• Use of stability and trim diagrams and stress-calculating equipment, including automatic data-based (ADB) equipment, and knowledge of loading cargoes and ballasting in order to keep hull stress within acceptable limits.
• Loading and unloading operations, with special regard to the transport of cargoes identified in the Code of Safe Practice for Cargo Stowage and Securing.
• General knowledge of tankers and tanker operations.
• Ability to explain the basic principles for establishing effective communications and improving working relationship between ship and terminal personnel.
• Knowledge of the operational and design limitations of bulk carriers

DURATION:
40 hours
