SCOPE:
The Maintenance and Damage Inspection course has been designed to meet the requirements of the STCW Convention 1978, as amended, Table A-II/2.

OBJECTIVE:
Those who successfully complete this course should be able to assess reported defects and damage to cargo spaces, hatch covers and ballast tanks, and to take appropriate action.

COURSE CONTENT:
- Knowledge of the limitations on strength of the vital constructional parts of a standard bulk carrier and ability to interpret given figures for bending moments and shear forces.
- Ability to explain how to avoid the detrimental effects on bulk carriers of corrosion, fatigue and inadequate cargo handling.

DURATION:
3 days (20 hours) (Including examination)
